

39th Meeting of the Wireless World Research Forum

18-20 October 2017 – Castelldefels (Barcelona), Spain

The Wireless World Research Forum (WWRF) brings together representatives from Industry and Academia from across the globe, with a strong focus on emerging economies. Members of the WWRF discuss how new insights will affect network implementation, services, applications and value chains in future markets. The WWRF organizes two meetings and a 5G Huddle every year, with the intention to discuss critical business and technology issues that will impact the connected society. In the 39th Meeting of the WWRF, which will take place in Castelldefels (Spain) on 18-20 October, 2017, emphasis will be put on the system-wide validation of 5G technologies with the theme “Getting ready to go – 5G trials and testbeds”.
